Hot blood red
You've got a hold right through my chest
Alarm, alarm, alarm
Let me catch my breath

Magnetic, magnetic
(There's static, there's static, there's static in our skin)
Magnetic
(There's static, there's static, there's static in our skin)
Magnetic

I am waiting for hours
And now it's time for cake
My mouth waters and my teeth ache
Won't wait any longer

Magnetic, magnetic
(There's static, there's static, there's static in our skin)
Magnetic
(There's static, there's static, there's static in our skin)
Magnetic

There's static, there's static, there's static in our skin
There's static, there's static, there's static in our skin
Our skin
