This lady's crazy Coz she's taking these pills
Her will power only allows her to feel how time kills
This lady's crazy
How she fell in the trap
She's got her back to the doctors
Coz she knows where it's at
Oh yeah

999, maybe she's fine, blind to her crime
Consigned to keep trying
999, maybe she's fine, blind to her kind
Consigned to keep trying, I am,
Oh I am, trying, I am

This lady's crazy said tomorrow she'd die
She needs the drugs that we bring her
Just to keep her alive
This lady's crazy how she fell to her fate
I hear her schizophrenic lover
Crying it's too late
It's too late
Oh is it too late

999, maybe she's fine, blind to her crime
Consigned to keep trying
999, maybe she's fine, blind to her kind
Consigned to keep trying, I am,
Oh I am, trying, I am

Oh the days roll on
You're still here
But it won't be for long

Oh I'm praying for you
You're still here
Gonna get you through

I am, Oh I am, trying, I am trying.
