I remember when you were on the farm  
Dreaming about Andy Warhol  
Wo ho ho Getting felt up in the barn  
Wondering if that's moral  
But hey look at you now  
You've got everything that a girl could want  
You've got high heel slippers baby but that's all right

Hollywood  
Hollywood

You shaped my life with Technicolor carving knife and  
Now I don't know what to feel  
All my emotions are wrapped up reel to reel

You know you turned me around stuck my face in the  
ground  
When I sat down on Garbo's sofa  
And I like some James Dean clown that you can make  
laugh  
Or frown - I just want to know when it's over

But hey look at me now you know just can't find nothing  
real  
And the movies are all outside baby but that's all right

Hollywood  
Hollywood  
You gave me the best I got this  
Soundtrack of violence and sex  
And  
Now I don't know who to be  
Cause every time I look in the  
Mirror I see some movie star  
You know it just doesn't look  
Like me

And us rebel's got too many causes  
But that's all right  
And I can't find a happy ending  
But that's all right

And like Jimi said 'There just ain't no life nowhere"  
But that's all right  
Hollywood - Hollywood - Hollywood
