

Pretty Maids "Cold Killer"

Visit "[Cold Killer](#)" on MotoLyrics.com

Do you know what's up in the sky
a danger to the human race
there should have been a paradise
instead there's a killer out in space

It's made by the human, a dangerous toy
an ironbound demon, built to destroy

It's staring at you day and night
it's hidden but you know it's there
a killer, a nuclear satellite
that can hit you everywhere

It's made by the human, a dangerous toy
an ironbound demon, built to destroy

[Chorus:]
Cold killer, cold killer
cold killer, iccold killer

And it can destroy all life on earth
a menace to peace in our time
a master of the universe
which took all these hopes of mine
It's made by the human, a dangerous toy
an ironbound demon, built to destroy

[Chorus]

Up in the sky you'll see
stars shining bright and free
but don't, don't get fooled by their light
cause maybe there's a killer inside

[Solo]

It's made by the human, a dangerous toy
an ironbound demon, built to destroy

[Chorus]
