Little Darling, gonna be a rock and roll star  
Little Darling, gonna play electric guitar  
Little Darling, would like to know you  
Pleased to meet you, how do you do  
Little Darling, Little Darling, Little Darling,  
Little Darling, Little Darling, gonna love you tonight

Little Darling, gonna shake shake boogaloo  
Little Darling, can I rattle my bones and dance with you  
And later on there'll be some lovin', dovin'  
A little kissing, a little hugging, a little holding you  
Little Darling, Little Darling, Little Darling,

Little Darling, Little Darling, gonna love you tonight  
Ain't nothing gonna stop it

Little Darling, what's mama gonna do  
Little Darling, when she finds out I stayed out all night  
with you  
Stayed out all night  
Little Darling, I'm gonna miss kissing you  
Little Darling, I'm gonna miss missing you  
Little Darling, Little Darling, Little Darling,  
Little Darling, Little Darling, Little Darling,  
Little Darling, Little Darling, Gonna love you tonight
