My baby she's a sexual intellectual
Something special, and she's mine
Invaluable, unusual, amusing
And she's crucial to my life

She picked me up
Just like an angel out of nowhere
One little miracle
An answer to my prayers

Love shine on me
Lift me up, take my heart in your hands
Love shine on me
Never stop 'cause you're the only one
My rising sun of love
Shine on me

I find her irresistible so magical

So mystical, but she's physical
She is
She leaves me in a state of grace
The sparkle on my rainy days
She's my bliss

She takes me underneath her wings
When I feel blue
My sweet soulsister
Now my heart belongs to you

Chorus

When I feel lonely, like a sailor lost at sea
She makes me realize what love can be
She is so good to me
Loveshine

Chorus
