Heading down the wrong track  
Yet another set back  
Living is a death trap

Generation Headless  
Stirring up a bad mess  
Demolition madness

Lost forever all together we fall

Prophecies unfolding  
The fireball is rolling  
Another promise broken

As the clock is ticking faster  
Mayhem and disaster  
And chaos ever after

Lost forever all together we fall  
Sweet mother earth mankind come undone  
Enemies of reality  
Planet panic. Pandemonium  
Killing you killing me

Critical condition  
Man without a vision  
No qualified decisions

Mayday mayday mayday show me leadership  
A sea of lies empty words and politics  
Crashed dreams mad world sick of it

Lost forever all together we fall
