There's something deep within I can't get rid of it  
Something inside me causing horror in my head  
I'm a stranger to myself  
Don't know what I'm doing  
Know what I'm doing

Tortured spirit haunting me  
Playing with my sanity  
Taking over steal my soul  
I'm in a mental stranglehold

Don't want to share myself with you or someone else  
What kind are you to split my mind and bend my will  
Just get out of my life  
Now why don't you leave me  
why don't you free me

[Chorus]

And when my better part has gone  
My alter ego still lives on  
we're two persons in one  
I can't break the bonds

Tortured spirit haunting me  
Playing with my sanity  
Taking over steal my soul  
I'm in a mental stranglehold  
Tortured spirit leave me be  
Now tell me what you want from me  
Taking over steal my soul  
Tortured spirit don't do it oh no
