Come watch me  
hands up turn them turn them in this room.

You know it's not brightless piceses return  
I wanna kick you where ever it hurts  
I blink you but I love you my pink ball.

Yeah it's not music that will hurt  
You call me reckless I'll be back.  
You want me switch it as I see.

Don't you love me  
I lost my innocent  
Don't know when and where they may be  
Don't you love me  
Don't you love me  
Don't you love me, now!

I take the cigaretts  
I make you make it up  
I can't stand you  
in front of my veins

It's not music that will hurt  
You call me reckless I'll be back.  
You want me switch it as I see.

Don't you love me  
I lost my innocent  
Don't know when and where they may be.  
Don't you love me  
Don't you love me  
Don't you love me, now!  
Don't you love me now

Don't you love me

You know I can paint it paint it  
Made it sleek.  
You know they love me!  
Just look at me

So I just frightest pieces return.  
You hurt that nun and learnedd  
How to make me hurt.  
I hear them birds.  
I watch you die.

(Don't you love me)  
I lost my innocent  
don't know when and where they may be.  
Don't you love me  
don't you love me

I lost my innocent  
don't know when and where they may be.  
Don't you love me  
don't you love me  
don't you love me, now

don't you love me now  
Don't you love me

Don't you love me  
don't you love me  
don't you love me  
don't you love me  
don't you love me  
don't you love me  
don't you love me  
don't you love me, now!
