# "Chasing The Impossible"

Visit "[Chasing The Impossible](#)" on MotoLyrics.com

Another day trying to find my place  
Caught in the crowd I'm just another face  
Trying to fly learn how to fall  
It's never enough when you want it all  
I can't give up give up  
You gotta believe

This is for those who are chasing the impossible  
this is for everyone who's lost themselves  
Carry on carry on  
Your time will come

Shooting for stars waiting for take off  
I'm here in the sun why do I feel so cold?  
I wanna run before I can walk  
It's never enough when you want it all  
I can't give up give up give up  
You gotta believe

This is for those who are chasing the impossible  
this is for everyone who's lost themselves  
Carry on carry on  
Your time will come

Don't ever stop believing  
Don't ever stop believing  
Don't you stop believing  
Don't you stop believing
