You were my favorite poster  
Hanging on a wall and just  
like a roller coaster

You kept me  
waiting for a fall

A surprised I  
expected and protected  
Like it's all I ever knew

In your eyes you selected me.  
The same way I chose you  
The same way I chose you

I kept you like a secret  
In everything I went through  
You would not believe it

To keep your face up on my wall  
From my mom I defended and pretended  
That you were no big deal

'Cuz to her you wer paper  
But in my eyes you were real  
In my eyes you were real

I'm so in love with you  
My mind is set on you  
This time and any time  
I just can't get enough of you

And when I'm stuck at home  
They think I'm all alone  
Don't know what I'd do  
If they knew  
I was here with you

Here with you x5  
If they knew I was here with you

You came in my life

At a time I was down

You colored the world  
and turned it around

And I can't believe  
It's all that I need  
It's true and I don't wanna fight this

I'm so in love with you  
My mind is set on you

This time and any time  
I just can't get enough of you

And when I'm stuck at home  
They think I'm all alone  
Don't know what I'd do  
If they knew  
I was here with you

I'm so in love with you  
My mind is set on you

This time and any time  
I just can't get enough of you

And when I'm stuck at home  
They think I'm all alone  
Don't know what I'd do  
If they knew  
I was here with you

I'm so in love with you  
My mind is set on you

This time and any time  
I just can't get enoufgh of you

And when I'm stuck at home  
They think I'm all alone  
Don't know what I'd do  
If they knew  
I was here with you
