Have you seen it yet
The headline of this issue
It's as clean as clean can get
now we're scared to get our feet wet

And this time
We're all left out
So we take it to the floor
With the numbers on the board
We're scared to get our feet wet

This competition
is getting us nowhere
In this audition
I'll play the role
In these ambitions

I couldn't let
My mind take over
So if I meet my match, I guess
I'll just end up like the rest

We've all been told
How to break the mould
But when it's time
For the spotlight to shine
It's easier to choke

This competition
is getting us nowhere
In this audition
I'll play the role
In these ambitions
