Allnight sailor poor man failure
Join one line there's no other
Cement mixer backroom fixer join one line
Theres's no other

I've been through this town I think I've stayed too long
There's some truth in what I say
Even though it's getting late I must be moving on
I can't stand vampire day

You whose hand shakes witness stand takes
Save yourself forget your brothers
Heroes die here bombers fly here
Killing one to save another

Solo

Allnight sailor poor man failure
Join one line there's no other
Heroes die here bombers fly here
Killing one to save another
