

Pretty Things "Midnight To Six"

Visit "[Midnight To Six](#)" on MotoLyrics.com

I never see
the people I know
in the bright light of day
so how can I say
that you're any friend of mine

See you anytime
I'm feelin' fine
Midnight til six
that's my time
that's your time

Midnight, midnight til six

I sleep through the day
I wake around four
but I always feel down
never get off the floor
til the night comes around
see you down town
take in some sounds
maybe we'll score
tell me some more
tell him some more

see you down town
take in some sounds
maybe we'll score
tell me some more
tell him some more

Midnight, midnight til six
