"Midnight To Six Man"

Visit "[Midnight To Six Man](#)" on MotoLyrics.com

I never see
The people I know
In the bright light of day
So how can I say
That you're any friend of mine
See you anytime
When I'm feeling fine
Midnight to six
Well, that's my time - that's your time

Midnight, midnight to six
Midnight, midnight to six
Midnight, midnight to six
Midnight, midnight to six

I sleep through the day
I wake around four
But I always feel down
Then I get off the floor
Till tonight comes around
See you downtown
Yeah, take in some sound
Baby, we'll score
Oh, tell me some more - tell him some more

See you downtown
Take in some sound
Baby, we'll score
Oh, tell me some more - tell him some more

Midnight, midnight to six
Midnight, midnight to six
Midnight, midnight to six
Midnight, midnight to six
