When they left you on Tobacco road  
The piggies they really left you there for dead  
Do you really greet the morning with your eyes red  
And do people pick your body now for lead

Pick yourself one more seat and sit yourself right down  
Rest assured some jack here must know  
I just can't stop this bleeding, oh no  
Resurrection was so long ago, oh yeah

All the churches have fallen  
They've pulled them on their heads  
There are no Jesus left  
And all religions dead

All the churches have fallen  
They've pulled them on their heads  
There are no Jesus left  
And all religions dead

Pick yourself one more seat and sit yourself down  
Rest assured some jack ass must know, alright  
I just can't seem to stop this bleeding  
Resurrection seems so long ago

All the churches have fallen  
They've pulled them on their heads  
There are no Jesus left  
And all religions dead

Religions dead  
Religions dead  
Religions dead
