"Running"

Visit "[Running](#)" on MotoLyrics.com

I fall into pieces don't wanna stand another round
Not getting used to that money makes the world go
around
I can't believe it there's no other way, money makes the
World go around
Running I'm running far away and there is no one to
stop
Me 'cause I don't care
I do believe there's s nothing money can't break down
And I am getting used to that money makes the world
go
Around
Running I am running far and there is no one to stop
me
'Cause I don't care
I got my own way my own direction I can feel it every
Single day
Don't want to stay there what am I waiting no one cares
About me anyway
Running I'm running far away and there is no one to
stop
Me 'cause I don't care!
