she got the best conversations

she look good from head to toe
i think one day she just might become the future willie
moe
she shopping bebe bcbg

and she floss her gucci furs

got her own car and house

she ain't suffering for a thing

plus she go to church on sunday and she's finally
getting saved
(halleijuah)
even though she was premiscuous back in her younger
days

i used to be the same way i can't even fuss or fight.

i just figure she'll stay with me if i keep the loving tight.

oooooooooh

i let you know that you're my good thing

even if you make a mistake and do the wrong thang

know that i'll forgive you
