I'll survive you, I will survive you
Well, it's too late, I know, to change the way we go
From this day on I want to stay on
Now that I've started learning
And the tides started turning
Well, it's here I want to stay

I'll let the moon announce my arrival
To every eye that cares to see
Just working on the art of survival
Where do we go from here, where do we go from here

I'm alive here, I can survive dear
Though the weather might change
From the wind to the rain
Well, my heart remains the same

I'll let the moon announce my arrival
To every eye that cares to see
Just working on the art of survival
Where do we go from here, where do we go from here.
