Sunglasses After Dark  
the Cramps

I got somethin' to say to you and you better listen -  
i'm gonna tell ya how to be cool in one easy lesson ..go!

sunglasses after dark  
aaah, they're so sharp  
and you'll be cool  
and the squares will drool...

it's real simple...  
sunglasses after dark  
aaah, it's so sharp

listen to this ...  
went out last saturday night  
got myself in a night fight  
everybody got clubbed including me  
'cause there wasn't one of those cats could see  
see..we had on S.A.D.

that's right... I was hangin' around on the street  
and this great big guy ran right into me  
I could hardly make him out , everything was so dim..  
but then I seen what was wrong with him..  
he was wearin' sunglasses after dark...

sunglasses after dark..  
aaah, you're so sharp  
sunglasses after dark..  
it's so simple...  
(where am I by the way?)
