i been seeing you for months coming to this place now
what i wanna know is, honey when can i see your face?
i know you been hiding something secrets in your past
whooh, baby, i just gotta know what's behind the mask
please, baby, please please give me one quick glance
now how come i can't see your face when i see what's
in your pants? is it a skin condition? or an extra eye?
surgical incision? i keep wonderin' why (why!) uhhh...
you ain't wearin' silver bullets or carving z's in chests
it's been months since halloween honey, i can't guess
now just relax and let me lift up this edge and let me
take a peek ooh, let me have a look in here...
eeeeeeek! well, curiosity killed this cat sorry i ever
asked what i don't know can't hurt me as much as
what's behind the mask what's behind the mask, girl
what's behind the mask what's behind that mask, girl
sorry i ever asked.
