I made a kite  
I nailed my heart in the middle  
It couldn't fly  
It soon fell from the sky  
The wind had seem just fine,  
But it couldn't fly my kite (oh no)

I did my best  
But all odds were against me  
What could've I done  
I should've never tried so hard  
The world is something  
That a man can't control (oh no)

Chorus:  
I close the door  
And turn off the lights  
I'll find a way to make things right  
I scream for more  
And lose my mind  
I fall on to my knees and slowly die

I hate my life  
I hate all the people in my life  
I hate myself  
I even hate the ones I love  
My life may seem just fine,  
But it's not what I want it to be
