Oh, Santa Claus is Pagan too
Just like all the rest
And if you are a merry witch
He'll bring you all the best

So get that star up on the roof
And bake those cookies too
Cause Christmas time is really Yule
And Santa's Pagan too

He's got that Buddha belly
And his Pops the Holly King
You've dressed him in that British Coat
The caps a Nordic thing

You took the horns right off his head
And stuck them on his deer
But he still flies high like Jupiter
With a belly full of beer

Hey, Santa Claus is Pagan too
Just like all the rest
And if you are a merry witch
He'll bring you all the best

So get that star up on the roof
And bake those cookies too
Cause Christmas time is really Yule
And Santa's Pagan too

Now history says Christ was likely
Not a Capricorn
But if you want to share our Yule
We don't care when he's born

Come celebrate the dawning
Of the sun king's bright rebirth
And if you practice what you preach
We'll all have peace on earth

Hey, Santa Claus is Pagan too

Just like all the rest
And if you are a merry witch
He'll bring you all the best

So get that star up on the roof
And bake those cookies too
Cause Christmas time is really Yule
And Santa's Pagan too
Now, Santa's way more jolly
Than most Christians would require
And if he weren't so busy
He'd be dancing 'round this fire

Yeah, you can call it Christmas
You've got us way outgunned
But just you wait 'til Beltaine
Then we'll see who's havin' fun!

Hey, Santa Claus is Pagan too
Just like all the rest
And if you are a merry witch
He'll bring you all the best

So get that star up on the roof
And bake those cookies too
Cause Christmas time is really Yule
And Santa's Pagan too

Hey, Santa Claus is Pagan too
Just like all the rest
And if you are a merry witch
He'll bring you all the best

So get that star up on the roof
And bake those cookies too
Cause Christmas time is really Yule
And Santa's Pagan too
