We made shadow birds
With our hands
And when they learned to fly away
I couldn't understand

So I became afraid of the night
Though it's only in the dark
I see my northern star
Guided by it's light

I'll walk night and day
Through deserted land
If the wind will erase
My tracks in the sand
I'll find my way back again
So no more wasting water

I've been casting nets
And catching stones
Felt something wet but now I know
This drop was all alone

I'll walk night and day
Through deserted land
If the wind will erase
My tracks in the sand
I'll find my way back again
So no more wasting water

When my eyes dry
I see your light in the dark
Look up to the sky
I'm so close to my northern star

I'm reaching the shore
Tired and thirsty
Can't stand anymore
Still I'm getting back on my feet

I'll walk night and day
Through deserted land

If the wind will erase
My tracks in the sand
I'll find my way back again
So no more wasting water

I'll walk night and day
Through deserted land
If the wind will erase
My tracks in the sand
I'll find my way back again
So no more wasting water

I'll walk night and day through deserted land
So no more wasting water
