When I'm alone I roll in my limited hold  
When I'm alone I roll and my limit is gone  
Well I've been living like it's high  
Do what my heartbeat warns  
When my wager is high  
Well I've been high before  
And you can't stop me on my roll

I was a lonely one, and I'm down on my own  
Out in the morning sun and I'm down to the bone  
And I've been living like a dog  
Do what my heartbeat warns  
When my wager is high  
Well I've been high before  
And you can't stop me on my roll

We did one thing right and we left it alone  
We did one thing wrong and it's often at home  
And I've been livid, hot and high  
I've been a lonely one  
Never waited before  
But I've been high before  
And you can't stop me on my roll
