Talk to her
Don't leave her behind
You've shut her out for too long
I know, 'cause I've seen her cry
You keep her down
She'll get up and move on

Wake up, it's time
Open your eyes
You've got to let her know
Stop wasting time
Make up your mind
Love her or let her go, yeah

Talk to her
You've done something wrong
We've all got something to hide
But don't turn your back for too long
Always be somebody waiting in line

Wake up, it's time
Open your eyes
You've got to let her know
Stop wasting time
Make up your mind
Love her or let her go, yeah

I can be all that she wants
Gotta heart, gotta home, gotta hand for her to hold

Talk to her
There's something you'll find
Without this pain that you've caused
You'll be the loser this time
And I'll be the one with the girl that you love

Believe me, she's leaving (X3)
I'll be the one
Look what you've lost

Wake up, it's time
Open your eyes

You've got to let her know
Stop wasting time
Make up your mind
Love her or let her go, yeah
