"Doodlebug"

Visit "[Doodlebug](#)" on MotoLyrics.com

Doodlebug, I hear you in the sky
Please don't stop, please don't let me die
You hear that sound, and then it stops
You open up, and down he drops
Little boy, please don't fool around
Little boy, please don't take us down

Another corner, another town
Another way, to get around
Will you ever stop the crying games?
Since '44, nothings been the same

Doodlebug, we hear you in the sky
Please don't stop, please don't make us die
We hear your sound, but then you stop
You've opened up, to let him drop
Little boy, look at who you've found
Littler boy, crashing to the ground
