Emile's Telegraphic Transmission Device ''Radio''

Visit "Radio" on MotoLyrics.com

From the voice Into the mic Down the wire Into the desk From the desk Into the mast Put in the air for us to hear VHF, UHF Frequencies Give to the world What it wants to hear

Around the world Up from the ground It's beamed from space At the speed of sound Can you hear? (can you hear?) The voice Londons calling out to your town Across the ether (across the ether) Hear the song The song that it will sing for you

From the ariel To the speaker I can hear the songs That you want me to hear On the phones (megaphones) Tell the world Tell the world of the radio
