Lyrics by Daniel Forsythe

Looking at this life, when I close my eyes
Deep within my mind, where I go
Looking at this life, well I realize
Deep within my mind, well I know
I need freedom, I need space n' time
Feel this life is closing in
I need freedom, I need peace o' mind
'Cause this life is all I know
Behind these eyes I am searching
Behind this smile, into my soul
Am I changing ? Is the change too fast?
Am I drifting ? Will I lose control ?
I need freedom, I need space n' time
Feel this life is closing in
I need freedom, I need peace o' mind
'Cause this life is all I know
Arrest my fears and unlock the gate
I've been building walls instead of bridges
Opening my eyes, the hour is late
I've been travelling too close to the edge
I need freedom, I need space n' time
Feel this life is closing in
I need freedom, I need peace o' mind
'Cause this life is all I know
