Life on your own, don't really make you free  
You can't put your arms around a memory  
A little bit of soul is worth more than gold

Everybody needs somebody  
Everybody needs somebody  
Everybody needs somebody  
I need you

The lonely days and nights were paved with dreams  
I've loved and lost and I do believe  
A little bit of soul, is worth more than gold

Everybody needs somebody  
Everybody needs somebody  
Everybody needs somebody  
I need you

Everybody needs somebody  
Everybody needs somebody, ooh yeah  
Say everybody needs somebody  
I need you

We got to get together babe  
We got to get together babe  
We got to get together babe
