Had me a woman, give me all her love
She gave me her blessing, I gave her my curse
I drove her crazy, I drove her crazy
Sent her insane, like a one-way train

In my lonely bed at night, wish that I could die
Hells comin down, Hells comin down

Made love in the morning, we got drunk at night
When she was sleepin, I stabbed her with a knife
I did decieve her, I was a midnight creeper
I robbed her blind, I drove her outta her mind

In my lonely bed at night, wish that I could die
Hells comin down, Hells comin down
