"Rays Of The Rising Sun"

Out of darkness came forth a blinding light
Bizzing(?) in the sky like a burning flame
We got on our knees, we began to pray

[Chorus]

We worship you
We pray to you
Oh we praise you
Look into the rays of the rising sun
Here they come, one by one
Look into the rays of the rising sun
Here they come, one by one
Look into the rays
The rays
Salvation has come
We have found the one we can trust upon (?)
Bringing peace and love (?)
That caresses me, sets my spirit free

Chorus

Repeat chorus to end
