"Shine Like Stars"

I watch you sleep
You look so peaceful
You look so vulnerable
I feel scared for you

To me you're precious
May you always
Shine like stars
Shine like stars
Shine like stars

I watch you dance
You look so happy
Lost in the moment of abandon
You're set free

To me you're precious
May you always
Shine like stars
Shine like stars
Shine like stars

Shine like stars
Shine like stars
Shine like stars
Shine like stars
