I don't wanna listen  
To what's on the radio  
Boring music  
Depressing talk shows

But I don't need it  
I got my record store  
Par the confusion  
A bye bye to guror

Well it would be nice to hear something that I musically  
enjoy  
So I bet you want to learn to broadcast this

What ever happened to pirate radio  
KCUA and radio rock  
So bring it back and I'll start relenting  
It's just a point that you're misrepresenting

Well it would be nice to hear something that I musically  
enjoy  
So I bet you want to learn to broadcast this

I don't wanna listen  
To what's on the radio  
Boring music  
Depressing talkshows

It would be nice to hear something that I musically  
enjoy  
So I bet you want to learn to broadcast this
