Does that make sense to you
Another broken heart in two
All of the people in this world
Besides you

We're at the top of the world today
Nothing standing in our way
But again you come tomorrow
Another day just filled with sorrow

Come and look at me
As I drown off in my sea
Does that make sense to you
Another broken heart in two
All of the people in this world
Besides you

Fix the top upon my t-shirt
With me off before I get her
Know I hear today
Where I'll go to any way

Come and look at me
Before I drift off to the sea
Does that make sense to you
Another broken heart in two
All of the people in this world
Besides you

Does that make sense to you
Another broken heart in two
All of the people in this world
Besides you
