"Forbidden Peace"

Guns against riches and riches in blood
Fortunes and poverty loading a gun
Know that our people our forming in one
Separation which is love and love has not won
Separation which is love

Forbidden peace is removing my personal thoughts
Every last piece of our happiness gone
All of these people are not gonna last
Separation which is love and love has not won
Separation which is love

Forbidden peace
Forbidden peace
Forbidden peace

Living in packages boxes and bags
Friends turn to enemies replaying their past
Families disrupted is not gonna last
Separation which is love and love has not won
Separation which is love

Forbidden peace
Forbidden peace
Forbidden peace

Liberation and maceration
Liberation

Separation which is love and love has not won
Separation which is love
