One Two Three Four

Sounds are trailing from the outside
I used to think that I was always safe
As often goes when I'm trailing behind
But there's nothing you can do to find your faith

Climbing up this tree to find my way
Feel this selfish wherever I stand
There's always something new you would always say
To make me smile whenever I can't

Come and sit in front of me
Let me bet what I want to be
The only thing I wanna keep is my life
Oh please
Let me change your point of view
Any as we look into
The colors of the flowers of this world
Oh please

Come and watch the skies
Let me see your eyes
Through these wonderful plastics
You can't play with the mastic's
Don't be surprised if you hear them please
That I am
A goody two shoes

Awful sounds in the dreadful night
They keep crying as they fight
They always do I wonder if I'll fire
Amongst the night

With something saddle I quickly cover
Pulls me down like a missing lover
I close my eyes and find another time
If you'll find

Come and watch the skies
Let me see your eyes

Through these wonderful plastics
You can't play with the mastic's
Don't be surprised if you hear them please
That I am
A goody two shoes
