If your going to leave me
I don't mind believe me
I'm staying home

Like a baby bird in it's nest
Waiting for it's mother

And if you are going to leave me
You'll just have to please me
With all the words you forgotten

Well I rock'n'roll all night
And I rock'n'roll all day
You can't stop me from that

Imagine that I went outside
Shooting for the stars
Everyone would look at me from their
Boiling cars

And if you going to leave me
You just have to please me
With all the words you forgotten

Well I rock'n'roll all night
And I rock'n'roll all day
You can't stop me from that

I'll never leave this house again to these problems fade
Til I still have hope
I'm staying home again
