Baby you were the perfect dream for everyone  
I thought it would be oh so very good to meet you  
Was I mistaken? Was I the mistake?  
I never gave myself like that to anyone...

Fool it's over now...  
Foolish, I know you...

All of the time you were stuck within this place  
In a lonely twisted world  
And I can't believe you were  
So out of your mind and it's more than I can take  
I could never be your girl  
Still I can't believe you were so foolish boy...

Baby's got a new place to hide from everyone  
You know that I can't reach you where you go...

Fool it's over now...  
Foolish, I know you...

All of the time you were stuck within this place  
In a lonely twisted world  
And I can't believe you were  
So out of your mind and it's more than I can take  
I could never be your girl  
Still I can't believe you were so foolish boy...

And I gave all I had  
But I can't bring you back  
So I will let this go tonight...

All of the time you were stuck within this place  
In a lonely twisted world  
And I can't believe you were  
So out of your mind and it's more than I can take  
I could never be your girl  
Still I can't believe you were so foolish boy...
