I'm running looking for the one thing oh to feel
complete
Track record wasn't what you heard oh beneath my
feat
And it keeps coming back with the same old ending
Oh I push and I try and I keep on sending

I need something just to get me
I need something to get me by
I need something just to protect me
All I want all I need

And they keep pointing back with the same old fingers
Oh the longer they stay oh the longer they linger now
And I feel it come around like I'm never gonna get
enough
And I knew from the start that this was gonna be oh
tough

I need something just to get me
I need something to get me by
I need something just to protect me
All I want all I need

I need to get this... now
I can't wait for this to come around.
