Just a feeling
With a hole inside my heart
I'm so glad it came around
All this moment that I found, or did it find me?

No all eyes are open
To the panoramic view
I'm too glad you came around
All this moment that's been found, or did it find you?

All great moments
They go so fast
All these things that we've been through
Now the dreams, they come with you
Make it last
I just wanna say (say)...

These are moments
Open avenues
So courageous
All we have to do
Lots of choices
That've chosen you
But I still stand (stand)

New understanding
Tomorrow's yesterdays
I'm falling in the frame
So one and the same
Yes I know it's true

So screen moments, now
Go so fast
All these things that we've been through
Now your dreams, they come with you
Gonna make it last
I just wanna say (say)...

These are moments
Open avenues
So courageous
All we have to do

Lots of choices
That've chosen you
But I still stand
I stand
I still stand
Stand.

Stand.
(Keep standing right in front of you.
This is all that I can do)
Yeah!

These are moments
Open avenues
So courageous
All we have to do
Lots of Choices
That've chosen you
But I still stand
Yeah!

These are moments
Open avenues
So courageous
All we have to do
Lots of Choices
That've chosen you
But I still stand
I stand
Still stand
For You, In front of You,
Stand.
