Well it's odd, odd isn't it?  
The way we thought & planned  
& dreamed.  
And it's strange, stranges, strange  
To me  
We ended standing here again

But it seems so different  
Than I had thought  
Ended up together  
But so far apart  
Now I can't move this feeling now  
Let's see, we're gonna [2x]  
Make a new start

I can't stop the way I feel  
The way you move is so unreal  
And I just think so differently  
The way I thought that it could be

So just come, come, come again  
You're always finding things in  
The end  
Just learn move times  
Been through  
I hope the best it comes straight  
To you

Out it seems so different than  
I had thought ended up  
Together but so far apart  
Now I can't move this feeling  
Now lets see, we're gonna [2x]  
Make a new start

So just live you hands  
Resound the sound  
Come on, come on  
Stop hiding now  
It's all a matter of time [2x]
