We've been deceived for so long, We stopped
believing
Can't know what's right or what's wrong, so you
stopped feelin'

When violence and coercion, are the tools they use you
must scream

No, Hell No
Won't follow commands, I won't meet your demands
No, Hell No
I am not yours to rule, I won't be your fool Cause'
We are standing here waiting, You'll listen to reason
This is a war you cannot win
We are standing here waiting, and you're gonna listen
This is a war you cannot win

I now can see that it's all a fight for power
But there's no way we are wrong, this is our hour
One voice can, Silence the masses
One voice can read these words to you

No, Hell No
Won't follow commands, I won't meet your demands
No, Hell No
I am not yours to rule, I won't be your fool Cause'
We are standing here waiting, You'll listen to reason
This is a war you cannot win
We are standing here waiting, and you're gonna listen
This is a war you cannot win

Just take a good look around you now
You have to see there's no way
You can't control what we feel, what we think,
And we will not go away

No, Hell No
Won't follow commands, I won't meet your demands
No, Hell No
I am not yours to rule, I won't be your fool Cause'
We are standing here waiting, You'll listen to reason
This is a war you cannot win

We are standing here waiting, and you're gonna listen
This is a war you cannot win

Won't follow commands, I won't meet your demands
(This is a war you cannot win)
We are standing here waiting
Won't follow commands, I won't meet your demands
(This is a war you cannot win)
