Unite my friends defy  
Heed failure's lesson  
And shape our future  
Make us transformed

Revolt and smash the shackles  
The crisis brings us together  
Let us defy

No more deception  
There's no safety lest you make your own way

Our dreams are what we are inside  
And when we close our eyes  
We see our future

Their plan will lead you to failure  
Embrace this wisdom let this wash away  
And knowledge drives our choices  
If we posses we sustain

No more deception, you must make your own way

Our dreams are what we are inside  
And when we close our eyes  
We see our future

No longer will we compromise  
Our fate is not defined  
By right we chose it

Oh now we're jaded can we come back to one  
And fine our way without giving up our hearts

Our dreams are what we are inside  
And when we close our eyes  
We see our future
