I know it's not so easy to know
Just how far I can go without you
The time that you spent sleeping alone
Wondering if I know you're waiting

And if you're lonely, wondering about me
Call out my name, I'll be there

If I am gone and you're alone
I still can feel you, it's not fading
Not fading, my hearts for you
And all along you've kept me strong
I still can feel you, it's not fading
Not fading, my hearts for you

Been days when I don't want to go on
Feel I can't still be as strong without you
Yet I can't think of anything lost
That I've worked for so long and found it

And if you're lonely, wondering about me
Call out my name, I'll be there

If I am gone and you're alone
I still can feel you, it's not fading
Not fading, my hearts for you
And all along you've kept me strong
I still can feel you, it's not fading
Not fading, my hearts for you

I can still feel you, it's not fading
My heart is always with you

And if you're lonely, wondering about me
Call out my name

If I am gone and you're alone
I still can feel you, it's not fading
Not fading, my hearts for you
And all along you've kept me strong
I still can feel you, it's not fading
Not fading, my hearts for you
