# "All In The Family"

Visit "[All In The Family](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Some people never change their lives  
No matter how fucked up it gets  
Some people never question, why?  
Never did, never, never did

Nobody wants to waste your time  
Nobody wants to hear you whine  
Make you feel like a piece of shit  
Never did, never, never did

Don't fake it, gotta keep it real  
Don't censor the way you feel  
Nobody cares about us, but us  
All in the family

Keep your head up, don't put it down  
Down sell out, just be yourself  
Nobody cares about us, but us  
All in the family

Don't depend on no-one but yourself  
No matter how hard you want to  
That way no-one will ever let you down  
Never will, never, never will

Don't waste another day  
Don't piss your life away  
There's way too many running around  
Run around, run, run around

Don't fake it, gotta keep it real  
Don't censor the way you feel  
Nobody cares about us, but us  
All in the family

Keep your head up, don't put it down  
Down sell out, just be yourself  
Nobody cares about us, but us  
All in the family

All up in your face, like whoa  
Think I'm playing? Well, I don't think so

Tell me when the fuck you know?  
Do you think I won't? Do you think I won't?

Don't fuck with my life, don't spit in my eyes  
Don't swallow my pride, don't, don't  
Don't fuck with my life, don't spit in my eyes  
Don't swallow my pride, don't, don't

Yeah, some people do what ever sells  
That doesn't surprise me  
So slit your throat or be yourself  
Gotta do what you gotta do

You get just what you see  
No fake ass shit from me  
There's way too many running around  
Run around, run, run around

Don't fake it, gotta keep it real  
Don't censor the way you feel  
Nobody cares about us, but us  
All in the family

Keep your head up, don't put it down  
Down sell out, just be yourself  
Nobody cares about us, but us  
All in the family

Don't fake it, gotta keep it real  
Don't censor the way you feel  
Nobody cares about us, but us  
All in the family

Keep your head up, don't put it down  
Down sell out, just be yourself  
Nobody cares about us, but us  
All in the family
