I can't stand your fucking bullshit, liar
Turning me life into nightmares
Pick apart my head inside
My head inside

Turn your back and you look away
Pray to God there's a brighter day
Feel my sanity slip away
Get me through another day

It's my bed I made, I'll lie there
My hole, my grave, I'm fine here
These thoughts they cloud my mind
They cloud my mind

Turn your back and you look away
Pray to God there's a brighter day
Feel my sanity slip away
Get me through another day

How's your life without me so far?
You whore, you cunt, you suffer?
Rehabilitate my mind
How's your life? Mines just fine

How's your life? Mines just fine
How's your life? Mines just fine
How's your life? Mines just fine
How's your life? Mines just fine
