Once again it's on and all the kids are lined up
Pumpin' their fist in the air gettin' fired up
It's all about you it's all about your loyalty
Keepin' it real your part of the family and that's
Who I am and that's where our heads at all that rock
star
Ego-shit we ain't about that
'Cause I feel the love and I feel the unity
You and me raisin' the fuckin' roof

So let's fuck up this bitch
Let's fuck up this bitch
Let's fuck up this bitch
Let's fuck up this bitch

Let's fuck it up
Set it off
Set it off, set it off bitch, set it off
Set it off, set it off bitch, set it off
Set it off, set it off bitch, set it off
Set it off

Come in to our world, I open all your eyes up
The word on the street, can you feel the heat rise up
And see what my troops did I'm tellin' the truth kid
All the hard heads in the pit gettin' stupid so what
Should we do is this what you wanna see are you down
Muthafucka wanna get crazy, 'cause I feel the love and
I
Feel the unity you and me raisin' the fuckin' roof

So let's fuck up this bitch
Let's fuck up this bitch
Let's fuck up this bitch
Let's fuck up this bitch

Let's fuck it up
Set it off
Set it off, set it off bitch, set it off
Set it off, set it off bitch, set it off
Set it off, set it off bitch, set it off
Set it off

Life's a gift we all make our choices as one we all bring
our forces

Life's a gift we all make our choices as one we all bring
our forces

Life's a gift we all make our choices as one we all bring
our forces

Life's a gift we all make our choices as one we all bring
our forces

Hey muthafucka I'm talk to you

Yeah you muthafucka, I'm through fucking' with you

Now I don't need that shit and I don't like that shit

I flip the script and I re-write that shit

Sucker mac's hear my spit and they bite that shit

I grab the misc and I ignite that shit

Good times like J. J. all dynamite and shit

I don't quit, like a phoenix I take flight and shit

Oh yeah you fuck with me I'll fight like a pit

And shit all over everything you love

And all that you hold sacred

Open up my eyes and see your face

The muthafuckin' face of hatred

So let's fuck up this bitch

Let's fuck up this bitch

Let's fuck up this bitch

Let's fuck up this bitch

Let's fuck it up

Set it off

Set it off, set it off bitch, set it off

Set it off, set it off bitch, set it off

Set it off, set it off bitch, set it off

Set it off

Right
