[Verse 1]

What have you done
That no one knows?
Your guilty conscience
Behind closed doors
A distant shadow
A vacant hall
Lose your grip
Can't break your fall

[Pre-chorus]

Dreaming your confession
You float all away
Drown in your obsession

[Chorus]

What are you afraid of
When you close your eyes?
Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of

[Verse 2]

Used to fly
Above the clouds
Now something keeps you
Buried underground

[Pre-chorus]

Dreaming your confession
You float all away
Drown in your obsession

[Chorus]

What are you afraid of
When you close your eyes?

Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of

[Guitar solo]

What are you

[Chorus x2]
What are you afraid of
When you close your eyes?
Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of
