Stuck between a rock and a hard place
If you wanna make out alive you need a game face
If you're lucky you can work minimum wage
Stretch your legs at feeding time but you still live in a cage

No We're lost and we got, got nowhere to go
We don't know who we're supposed to be
No We're lost and we got, got nowhere to go
Searching for an identity

But what about the lost ones just floating down the stream
A far cry from the young guns buying their futures at ivy leagues
You didn't buy into the suburban dream
What your future holds it remains to be seen
Don't let them make you feel worthless, you'll figure out what you've got to give

No We're lost and we got, got nowhere to go
We don't know who we're supposed to be
No We're lost and we got, got nowhere to go
Searching for an identity

We're losing a generation to self-loathing and apathy
Emptiness and alienation is what we seem to breed

No We're lost and we got, got nowhere to go
We don't know who we're supposed to be
No We're lost and we got, got nowhere to go
Searching for an identity
